Chapter 2 Review of the Accounting Process

QUESTIONS FOR REVIEW OF KEY TOPICS

Question 2-1

External events involve an exchange transaction between the company and a separate economic entity. For every external transaction, the company is receiving something in exchange for something else. Internal events do not involve an exchange transaction but do affect the financial position of the company. Examples of external events are the purchase of inventory, a sale to a customer, and the borrowing of cash from a bank. Examples of internal events include the recording of depreciation expense, the expiration of prepaid rent, and the accrual of salary expense.

Question 2-2

According to the accounting equation, there is equality between the total economic resources of an entity, its assets, and the claims to those resources, liabilities, and equity. This implies that, since resources must always equal claims, the net effect of any transaction cannot affect one side of the accounting equation differently than the other side.

Question 2-3

The purpose of a journal is to capture, in chronological order, the dual effect of a transaction. A general ledger is a collection of storage areas called accounts. These accounts keep track of the increases and decreases in each element of financial position.

Question 2-4

Temporary accounts represent the financial position of a company—assets, liabilities, and owners' equity—at a particular point in time. Temporary accounts represent the changes in shareholders' equity, the retained earnings component of equity for a corporation, caused by revenue, expense, gain, and loss transactions. It would be cumbersome to record revenue/expense, gain/loss transactions directly into the permanent retained earnings account. Recording these transactions in temporary accounts facilitates the preparation of the financial statements.

Question 2-5

Assets are increased by debits and decreased by credits. Liabilities and equity accounts are increased by credits and decreased by debits.

2-1

Kimmel, Barbara Trenholm, Valerie R. The updates of accounting standards are included in the course and aligned with the students of the next accounting course, intermediate accounting. Additional problems: To obtain accounting, you have to do with every course update, we continue to increase the number of problems to chapter so that the instructors should not worry about exhausting the materials to be assigned. Office Hour videos and applied skills videos allow students to preview the material before lessons or to review the contents outside the lessons. BloomA & is taxonomy: questions, exercises and problems at the end of each chapter have been classified according to the level of knowledge required to respond to each of them. Start your review of accounting principles, Volume 1 This book explained the content well and brings the concepts well but after each chapter there are pages on pages of chapter questions. Weygandt, Donald E. by Jerry J. Kimmel, Barbara Trenholm, Valerie Warren, Lori Novak Year: 2019 Accounting Principles, Volume 1 8th ISBN-13 Edition: 9 78119502425 ISBN-10: 119502425 Author(s): Jerry J. Vitalfonte is the leading supplier of online textbooks and teaching materials. These videos provide 24-hour assistance to students and are a great study tool to review content after lessons and to prepare for quizzes / exams. Weekly accounting updates: Up to date and informed about the latest accounting news.
